

Women 4Tech

WOMEN 4TECH

A club born out to create awareness, encourage and advance women in technology from classroom to the boardroom, to improve their knowledge in Science Technology Engineering and Mathematics (STEM) and Information Communication Technology (ICT) as well reach out to factual information.

The club is meant to develop our community in order to increase the chance of career opportunities and empowering women into technology.

ABOUT US

Aimed at building digital literacy in women, expose them to available employment and entrepreneurship opportunities within the technology space. To increase the number of women that are actively involved in STEM fields as well as ensure that the digital gap is bridged between male and female within the technology ecosystem.

W4Tech is designed to bridge the gender technology gap by helping women access training and educational opportunities in areas of STEM and Information Technology (IT) through meetups, workshops, seminars and conferences. To provide Leadership / Teamwork Skills and develop brighter and better IT Personals(women).
